

LOGICAL REASONING WORK BOOK

CHAPTER 1

Syllogism

The question contains some statements followed by some conclusions. Decide which of the given conclusions logically follow from the given statements, disregarding commonly known facts.

Q1. STATEMENTS All A's are B's. All C's are D's.

A. All B's are D's. B. All D's are B's. C. Some B's are D's. D. None of these.

Q2. STATEMENTS All papers are books. Some books are not dairies.

A. No paper is a dairy. B. Some papers are not dairies. C. Some papers are dairies. D. None of these.

Q3. Some shirts are trousers. Some trousers are pants.

A. Some shirts are not pants. B. No shirt is pant. C. Some pants are not shirts. D. None of these.

Q4. All rivers are ocean. Some waters are rivers.

A. Some waters are not oceans. B. Some oceans are not waters. C. Some water are oceans. D. Both (A) and (C)

Q5. Some guns are not pens. Some pens are not pencils.

I. Some guns are not pencils. II. Some pens are not guns. III. Some pencils are not guns.

A. None of the given conclusion follows. B. Only one conclusion follows. C. Only two conclusions follow. D. All three conclusions follow.

PRACTICE PAPER

1.Statements

P: Some mobiles are cameras. Q: Some cameras are calculators.

Conclusions I. All calculators are mobiles. II. All cameras are mobiles.

Option 1 : Only conclusion I follows. Option 2 : Only conclusion II follows.

Option 3 : Neither I nor II follows. Option 4 : Both I and II follow.

2.Statements

P: Some children are adults. Q: Some adults are not old

Conclusions I. Some children are not old. II. Some children are old.

Option 1 : Only conclusion I follows Option 2 : Only conclusion II follows.
Option 3 : Neither I nor II follows. Option 4 : Both I and II follows.

3.Statements

P: Some bags are hot. Q: All hots are cakes.

Conclusions

I.All cakes are bags. II. Some bags are cakes.

Option 1 : Only conclusion I follows. 2 : Only conclusion II follows. 3 : Neither I nor II follows

Option 4 : Both I and II follow.

4.Statements

P: All doctors are surgeons. Q: Some chemists are doctors

Conclusions

I. Some chemists are surgeons. II. All surgeons are chemists.

Option 1 : only conclusion I follows. 2 : only conclusion II follows.

Option 3 : neither I nor II follows 4 : both I and II follow.

5.Statements

(a) No vest is shirt. (b) All shirts are jackets.

Conclusions

I. All vests are jackets. II. No vest is a jacket. III. Some jackets are shirts IV. All jackets are shirts

Option 1 : Only I follows 2 : Only II follows Option 3 : Only III follows

Option 4 : Only III and IV follow. Option 5 : None follows.

6.Statements

(a) All parks are roads (b) Some roads are mall.

Conclusions

I. All malls are roads. II. All malls are parks. III. Some parks are malls IV. No park is a mall.

Option 1 : Only I follows 2 : Only II and III follows 3 : Only II or III follows

Option 4 : Either I or IV follows 5 : None follows.

7.Statements (a) All cities are towns. (b) Some cities are villages.

Conclusions I. All villages are towns. II. No village is a town. III. Some villages are towns.

Option 1 : Only III follows Option 2 : Only I follows Option 3 : Only II follows
Option 4 : None of these

8.Statements Some ship are boats. All boats are submarines Some submarines are yatches.

Conclusions I. Some yatches are boats. II. Some submarines are boats. III. Some submarines are ships. IV. Some yatches are ships.

Option 1 : All follow Option 2 : Only II and III follows Option 3 : Only III follows
Option 4 : Only either III or IV follows. Option 5 : None of these

9.Statements: Some marbles are pens. Some pens are dogs Some dogs are doors.

Conclusions I. Some doors are pens. II. Some dogs are marbles. III. Some marbles are doors.

Option 1 : All follow. Option 2 : Only II follows. Option 3 : Only I follows. Option 4 : Only III follows. Option 5 : None follows

10.Statements: Some rabbits are deers. No deer is a lion. All elephants are lions.

Conclusions: I. No rabbit is lion. II. No elephant is deer III. Some elephants are rabbits.

Option 1 : All follow Option 2 : Only II follows Option 3 : Either I or II follow
Option 4 : Only II and III follows Option 5 : None of these

CHAPTER 2

CODING AND DECODING

Reasoning – Coding And Decoding Questions

1. In a certain code, 'KAVERI' is written as 'VAKIRE'. How will 'MYSORE' written in that code?
(A) EROSYM (B) SYMROE (C) SYMEOR (D) SYMERO
2. In a certain code, if 'LOUD' is written as 'JQSF', then which of the following English word will be coded as 'PKQG'? (A) RISE (B) ROPE (C) ROAD (D) RICH
3. In a certain code, 'SPIDER' is written as 'PSDIRE'. How will be "COMMON" written in that code?
(A) OCOMMO (B) OCMMNO (C) OCMOMN (D) OCMMON
4. If 'BOMBAY' is written as 'MYMYMY'. How will "TAMILNADU" be written in that code?
(A) TIATITIA (B) MNUMNUMNU (C) IATITIAT (D) ALDALDALD
5. In a certain, 'DECEMBER' is written as 'ERMBCEDE', which word will be written as 'ERMBVENO' in that code? (A) BERNOVEM (B) NOVEMBER (C) EMBERNOV (D) NOVBEREM
6. In a certain code, 'MOTHER' is written as 'ONHURE', how will be 'ANSWER' written in that code?
(A) NBXSSE (B) NBWRRE (C) MAVSPE (D) NBWTRE
7. In a certain code, 'OPERATION' is written as 'NODQBUJPO', how will be 'INVISIBLE' written in that code? (A) HMUHTJCMF (B) HMUHTHAKD (C) JOWJTHAKD (D) JOWJTJCMF

8. In a certain code, 'GRASP' is coded as 'BMVNK' which word would be coded as 'CRANE'?
- (A) FUDQH (B) HWFST (C) GVERI (D) XMVIZ
9. In a certain code, 'SWITCH' is written as "TVJSDG", which word would be written as 'CQFZE'?
- (A) BARED (B) BRAED (C) BREAD (D) BRADE
10. In a certain code, "MIND" is written as 'KGLB' and 'ARGUE' written as 'YPESC', then how will be 'DIAGRAM' written in that code? (A) BGYEPYK (B) BGYPYEK (C) GLPEYKB (D) LKBGYPK
11. If in a certain code. LUTE is written as MUTE and FATE is written as GATE, then how will BLUE be written in that code? (A) CLUE (B) GLUE (C) FLUE (D) SLUE
12. In a certain code language, GERMINATION is written as IMGRENNOAIT. How is ESTABLISHED written in that code? (A) BEATSLDEIHS (B) BAETSLEDIHS (C) BATESLDEIHS (D) BAETSLDEIHS
13. In a certain code, BASIC is written as DDULE. How is LEADER written in that code?
- (A) NGCFGT (B) NHCAGU (C) OGDFHT (D) OHDGHU
14. In a certain code. CLOUD is written as GTRKF. How is SIGHT written in that code?
- (A) UGHHT (B) UHJFW (C) WFJGV (D) WGJHV
15. In a certain code language, POND is coded as RSTL, how is HEAR written in that code?
- (A) GHIJ (B) GHIZ (C) JIGZ (D) JCLZ
16. If GOLD is coded as HOME, COME is coded as DONE and CORD is coded as CODE, how would you code SONS? (A) TPOT (B) TOOT (C) TOOS (D) TONT
17. In a certain code, CALANDER is written as CALCNDER. How is CIRCULAR written in that code?
- (A) ICCRLURA (B) CRIUCLRA (C) ICRCLUAR (D) CRIUCALR

18. If DIRECTIN is coded as RIDTCENOI, then PRINCIPAL will be coded as –
(A) IRPICNLAP (B) RIPICNALP (C) PIRCNIPLA (D) ICNRIPALP

19. In a certain code language, GEORGE is written CAKNCE then, how is JOSEPH written in that code?
(A) KALFOD (B) FKOALD (C) KOFALD (D) KOFDLA

20. In a certain code language. TRUTHFUL is written as VTWVJHWN. In that code how FAITHFUL will be written? (A) HKCHVJWN (B) HCKJVHWN (C) HCKVJHWN (D) CHKVJHWN

21. If Blue is called Green, Green is called Orange, Orange is called Yellow, Yellow is called Black. Black is called Red and Red is called White. What is the colour of turmeric?
(a) Orange (b) Green
(c) White (d) Black (e) None of these

22. If 'black' means 'yellow', 'yellow' means 'blue', 'blue' means 'green', 'green' means 'white' and 'white' means 'red', then which one of the following will represent the colour of 'milk'?
(a) White (b) Green
(c) Red (d) Black (e) None of these

23. In a certain code language –

i. 'pit na sa' means 'you are welcome'

ii. 'na ho pa la' means 'they are very good'

iii. 'ka da la' means 'who is good'

iv. 'od ho pit la' means 'they welcome good people'

A. which of the following means 'people' in that code language?

(a) ho (b) pit (c) la (d) od (e) Data inadequate

B. Which of the following means 'vary' in that code language?

(a) na (b) da (c) pa (d) Data inadequate (e) None of these

C. Which of the following statement(s) is/are redundant to answer the above two questions?

(a) None (b) (i) and (iii) (c) (ii) or (iv) (d) (i) or (iv) (e) None of these

24. In a certain code language BEAM is written as 5%LK and COME is written as \$ 7 K %. How is 'BOMB' written in that code?

- (a) 5%K5 (b) 57K5 (c) \$7K\$ (d) 5\$%5 (e) None of these

25. In a certain code language 'DEAR' is written as '%#\$?', 'RED' is written as '?#%', 'MORE' is written as '@*?#'. How is 'DREAM' written in that code?

- (a) # ? % \$ @ (b) # % ? \$ @ (c) % ? # \$ @ (d) \$? # \$ @ (e) None of these

CHAPTER 3

BLOOD REALATION

BLOOD RELATIONSHIP

A is B's sister. C is B's mother. D is C's father. E is D's mother. Then, how is A related to D?

- A) Grandfather B) Grandmother C) Daughter D) Granddaughter

P is the brother of Q and R. S is R's mother. T is P's father. Which of the following statements cannot be definitely true ?

- A) T is Q's father B) S is P's mother C) P is S's son D) Q is T's son

Pointing out to a lady, a girl said, "She is the daughter-in-law of the grandmother of my father's only son." How is the lady related to the girl ?

- A) Sister-in-law B) Mother C) Aunt D) Can't be determined

Pointing a photograph X said to his friend Y, "She is the only daughter of the father of my mother." How X is related to the person of photograph?

- A. Daughter B. Son C. Nephew D. Cannot be decided

Pointing to a person, a man said to a woman, "His mother is the only daughter of your father." How was the woman related to the person ?

- A) Aunt B) Mother C) Wife D) Daughter

There are six persons A, B, C, D, E and F. C is the sister of F. B is the brother of E's husband. D is the father of A and grandfather of F. There are two fathers, three brothers and a mother in the group. Who is the mother ?

A) A B) B C) C D) E

There is a family of six persons A, B, C, D, E and F. They are Lawyer, Doctor, Teacher, Salesman, Engineer and Accountant. There are two married couples in the family. D, the Salesman is married to the Lady Teacher. The Doctor is married to the Lawyer. F, the Accountant is the son of B and brother of E. C, the Lawyer is the daughter-in-law of A. E is the unmarried Engineer. A is the grandmother of F. How is E related to F?

A) Brother B) Sister C) Cousin D) Cannot be determined

In a family, there are six members A, B, C, D, E and F. A and B are a married couple, A being the male member. D is the only son of C, who is the brother of A. E is the sister of D. B is the daughter-in-law of F, whose husband has died. How is E related to C?

A) Sister B) Daughter C) Cousin D) Mother

If $A + B$ means A is the mother of B; $A - B$ means A is the brother of B; $A \% B$ means A is the father of B and $A \times B$ means A is the sister of B, which of the following shows that P is the maternal uncle of Q?

A. $Q - N + M \times P$ B. $P + S \times N - Q$ C. $P - M + N \times Q$ D. $Q - S \% P$

If $A + B$ means A is the brother of B; $A - B$ means A is the sister of B and $A \times B$ means A is the father of B. Which of the following means that C is the son of M?

A. $M - N \times C + F$ B. $F - C + N \times M$ C. $N + M - F \times C$ D. $M \times N - C + F$

If $A + B$ means A is the sister of B; $A \times B$ means A is the wife of B, $A \% B$ means A is the father of B and $A - B$ means A is the brother of B. Which of the following means T is the daughter of P?

A. $P \times Q \% R + S - T$ B. $P \times Q \% R - T + S$ C. $P \times Q \% R + T - S$ D. $P \times Q \% R + S + T$

CHAPTER 4

DATA SUFFICIENCY

Mark (A) if the data in Statement I alone is sufficient to answer the question, while the data in Statement II alone is not sufficient to answer the question. Mark (B) if the data in Statement II alone is sufficient to answer the question, while the data in Statement I alone is not sufficient to answer the question. Mark (C) if the data either in Statement I or in Statement II alone is sufficient to answer the question. Mark (D) if the data even in both Statements I and II together is not sufficient to answer the question. Mark (E) if the data in both Statements I and II together is necessary to answer the question.

Q1. A and B together can complete a task in 7 days. B alone can do it in 20 days. What part of the work was carried out by A?

- I. A completed the job alone after A and B worked together for 5 days.
- II. Part of the work done by A could have been done by B and C together in 6 days.

Q2. What is Sonia's present age?

- I. Sonia's present age is five times Deepak's present age.
- II. Five years ago her age was twenty-five times Deepak's age at that time.

Q3. The simple interest on a sum of money is Rs.50. What is the sum?

- I. The interest rate is 10% p.a.
- II. The sum earned simple interest in 10 years.

Q4. The area of playground is 1600 m². What is the perimeter?

- I. It is a perfect square playground.
- II. It costs Rs.3200 to put a fence around the playground at the rate of Rs.20 per meter.

Q5. A boat takes a total time of three hours to travel downstream from P and Q and upstream back from Q to P. What is the speed of the boat in still water?

- I. The speed of the river current is 1 km per hour.
- II. The distance between P and Q is 4 km.

Q6. How much time will the leak take to empty the full cistern?

- I. The cistern is normally filled in 9 hours.
- II. It takes one hour more than the usual time to fill the cistern because of a leak in the bottom.

Q7. Two towns are connected by railway. Can you find the distance between them?

- I. The speed of the mail train is 12 km/hr more than that of an express train.
- II. A mail train takes 40 minutes less than an express train to cover the distance.

Q8. What is the length of a running train crossing another 180 meter long train running in the opposite direction?

- I. The relative speed of the two trains was 150 kmph.
- II. The trains took 9 seconds to cross each other.

Q9. The average age of P, Q, R and S is 30 years. How old is R?

- I. The sum of ages of P and R is 60 years.
- II. S is 10 years younger than R.

Q10. How long will Machine Y, working alone, take to produce x candles?

- I. Machine X produces x candles in 5 minutes.
- II. Machine X and Machine Y working at the same time produce x candles in 2 minutes.

Q11. Kareena is twice as old as Alia. What is the difference in their ages?

- I. Five years hence, the ratio of their ages would be 9:5.
- II. Ten years back, the ratio of their ages was 3:1.

Q12. What is the sum which earned interest?

- I. The total simple interest was Rs.7000 after 7 years.
- II. The total of sum and simple interest was double of the sum after 5 years.

Q13. The area of a rectangle is equal to the area of right-angles triangle. What is the length of the rectangle?

- I. The base of the triangle is 40 cm.
- II. The height of the triangle is 50 cm.

Q14. What is the speed of the boat in still water?

- I. It takes 2 hours to cover the distance between A and B downstream.
- II. It takes 4 hours to cover the distance between A and B upstream.

Q15. What will be the cost of painting the inner walls of a room if the rate of painting is Rs. 20 per square foot?

- 1 Circumference of the floor is 44 feet.
- 2 The height of the wall of the room is 12 feet.

CHAPTER 5

CLOCK AND CALENDER Q1. How many times the hands of a clock will be in straight line but opposite in direction?

Q2. How many times the hands of a clock will be at 90° ?

Q3. At what time between 2 and 3 when hands of a clock will get co-incide?

Q4. At what time between 3 and 4 when hands of a clock will be in straight but opposite in direction?

Q5. When hands of a clock be at 90 degree b/w 5 and 6 o' clock ?

- a) 5: 40 b) 5: 43 $\frac{7}{11}$ c) 5: 45 d) 5: 47 $\frac{7}{11}$

Q6. When hands of a clock will be straight but opposite in direction b/w 6 and 7 o'clock?

- a) 6: 30 b) 6: 40 $\frac{5}{11}$ c) 6: 23 $\frac{5}{11}$ d) **NOT**

Q7. When hands of a clock be at 90 degree b/w 1 and 2 o' clock ?

- a) **1:54 $\frac{6}{11}$** b) 1:30 c) 1:55 $\frac{5}{11}$ d) 1: 45

Q8. What is the angle b/w minute hand and hour hand at 10:10 ?

- a) 110 b) 105 c) **115** d) 125

Q9. What is the angle b/w minute hand and hour hand at 3:48 ?

- a) 170 b) 144 c) **174** d) 35

Q10. At what time between 5 and 6 o' clock are the hands of a 3 minutes apart ?

- a) 12 min b) **24 min** c) 30 min d) 45 min

Q11. At 3.40, the hour hand and the minute hand of a clock form an angle of

- a) 120 b) 110 c) 115 d) **130**

Q12. In 10 minutes, the minute hand gains over the hour hand by –

- a) 50 deg b) 45 deg c) **55 deg** d) 49 deg

Q13. The angle between the minute hand and the hour hand of a clock when the time is 4.30 is

- a) 40 deg b) **45 deg** c) 30 deg d) 55 deg

Q14. What is the ratio of 36 minutes to one hour ?

- a) $\frac{2}{5}$ b) **$\frac{3}{5}$** c) $\frac{2}{7}$ d) $\frac{6}{7}$

Q15. A clock is set right at 8 AM , the clock gains 10 minutes in 24 hours, what will be true time when the clock indicates 1 pm on the following day?

Q16. A clock shows 2.40 , find its mirror image?

- a) 9.10 b) 9.20 c) 9.30 d) 10

Q17. How many days are there in $3x$ weeks x days?

- a) $4x$ b) $3x^2$ c) $21x$ d) $22x$

Q18. What was the day on 17 June 1985?

- a) Sunday b) **Monday** c) Tuesday d) Friday

Q19. Which of the following year is **not** a leap year?

- a) 400 b) 1996 c) **500** d) 1776

Q20. What was the day on 24 February 2000 ?

- a) Friday b) Saturday c) **Thursday** d) Sunday

Q21. The last day of a century can be?

- a) Tuesday b) **Monday** c) Thursday d) Saturday

Q22. Today is Sunday .After 50 days it will be?

- a) Friday b) Saturday c) Thursday d) **Monday**

Q23. If 2th February, 2005 is Monday, what was the day of the week on 2th Feb, 2004?

- a) **Saturday** b) Monday c) Friday d) Wednesday

Q24. On what dates of June, 1994 did Thursday fall?

- a) 2th , 9th , 16th , 23th
b) 4th , 11th , 18th , 25th
c) 1th , 8th , 15th , 22th
d) 5th , 12th , 19th , 26th

Q25. The calendar for the year 2005 will be the same for the year:

- a) 2009 b) 2010 c) **2011** d) 2012

Q26. The calendar for the year 1990 will be the same for the year:

- a) 1995 b) 1996 c) 2000 d) **2001**

Q27. If Feb 12th, 1986 falls on Wednesday then Jan 1st, 1987 falls on which day?

- a) Wednesday b) Monday c) **Thursday** d) Saturday

Q28. If today is Thursday , what will be the day 250 days from now ?

- a) Monday b) **Tuesday** c) Wednesday d) Friday

Q29. What was the day of the week 18 June 1576 ?

- a) Tuesday b) Wednesday c) Thursday d) **friday**

Q30. What will be the day of the week on 20 December 2025 ?

- a) **Saturday** b) Sunday c) Monday d) Friday

Q31. If 12th june 2003 falls on Wednesday, then 28th june 2005 will fall on?

- a) Monday b) Friday c) Saturday d) Tuesday

Q32. The maximum gap between two successive leap year is?

- A) 4 B) 8 C) 2 D) 1

Q33. The calendar for the year 2007 will be the same for the year

- a) 2017 b) 2018 c) 2019 d) 2015

Q34. The calendar for the year 1996 will be the same for the year

- a) 2000 b) 2012 c) 2014 d) 2024

Q33. Which two months in a year have the same calendar?

- a) Apr, july b) oct, dec c) apr, nov d) june , oct

CHAPTER 6

SEATING ARRANGEMENT

Linear Sequencing

Linear sequencing is essentially arranging the item in a sequence. The questions of this type also referred to as “Seating Arrangement”. The word “Seating Arrangement” should not be misconstrued; it should be treated as questions involving only persons sitting as per specific conditions. Essentially, these questions involve arranging subjects (people or things) according to the given conditions.

Q1. Seven boys – Rajan, Shyam, Vardhan, Mitra, Vimal, Raj and Kishan are sitting in a row. Shyam sits to the immediate left of Vardhan and third to the right of Rajan, whereas Mitra who sits at the extreme left, is next to Kishan.

1. Who is sitting to the immediate right of Shyam?

- A) Mitra B) Kishan C) Vimal D) Vardhan

2. If Vardhan and Kishan exchange places with each other without changing the rest of the arrangement that is already done, who will be sitting to the immediate left of Rajan? A) Kishan B) Raj C) Vimal D) Vardhan

3. If only Shyam sits between Raj and Vardhan, who is exactly in the middle of all the boys? A) Raj B) Vardhan C) Vimal D) Rajan

4. After arranging all the boys as per the given conditions given in the data, if Rajan now exchanges his place with Mitra and Vardhan exchanges his position with Vimal, then how many persons will be there in between Vimal and Rajan? A) Three B) Two C) Five D) One

Q2. Five people – Arnab, Ankur, Adi, Anush and Asraf are sitting in a row facing the same direction. There are at least two people sitting between Arnab and Asraf . There is at most one person sitting in between Ankur and Anush. If Anush is sitting to the immediate right of Adi, who is adjacent to Arnab, which of the following is true?

- A) Arnab is sitting at the extreme right.
- B) Asraf and Anush are adjacent to each other.
- C) Asraf is sitting in between Anush and Arnab
- D) Asraf and Ankur are adjacent to each other.

Q3. Six people Alpana, Brahma, Chethan, Drona, Ena, and Fanna are sitting in a row. Alpana and Fanna are sitting adjacent to each other. Chethan is two places to the right of Ena and neither of them is sitting at the extreme ends. There is one person sitting between Alpana and Brahma. Who is sitting to the immediate right of Ena?

- A) Alpana B) Fanna C) Drona D) Brahma

Q4. Six buildings of different colors red, yellow, white, blue, green and orange are in a row. Each of these buildings belong to a different person among Shah Rukh Khan, Salman Khan, Aamir Khan, Imran Khan, Saif Ali Khan and Ranbir Kapoor. Following is the information known about them.

- I. Green building is three places to the right of Shah Rukh Khan's building.
- II. Red building is three places to the right of Salman Khan's building.

III. White building is three places to the right of Ranbir Kapoor's building.

IV. Aamir Khan's building is adjacent to the orange building.

V. Imran Khan's building is not green and Salman Khan's building is not blue.

VI. Saif Ali Khan's building is not adjacent to Aamir Khan's building but three places away from Ranbir Kapoor's building.

1. What is the color of Shah Rukh Khan's building?

A) Blue B) Yellow C) Green D) Red

2. The red building belongs to _____?

A) Aamir Khan B) Imran Khan C) Saif Ali Khan D) Shah Rukh Khan

3. Which of the following is true?

A) There is at least one building between green and orange colored building. B)
Ranbir Kapoor's building is to the left of Salman Khan's building. C)
Ranbir Kapoor's and Salman Khan's buildings are not adjacent. D)
Imran Khan's building is to the right of Salman Khan's building

Circular Arrangement

Questions on the circular arrangement involve seating of people around a table or arrangement of things in a circular manner. The data given in the questions specify the positions of the individuals (things) in the arrangement. The positions are specified through conditions involving specified person sitting (or not sitting) opposite to each other or a particular person sitting to the right or left of another person, etc.

Q1. There are 10 people in a meeting which is consisting of a teacher, a lawyer, a doctor, a scientist, a taxi driver, a physicist, two HRs, two software engineers. Teacher sits opposite to the lawyer. The scientist and doctor sit opposite to each other. The two HRs sit opposite to each other with one of them sitting to the immediate left of the scientist. The teacher sits to the immediate right of the scientist.

1. If two software engineers sit opposite to each other but neither of them is to the immediate next to any of the HRs, who sits to the immediate right to the teacher?
A) Lawyer B) Taxi driver C) HR D) Software engineer

2. If the taxi driver and the physicist do not sit opposite to each other, then which of the following must be TRUE?

A) The software engineer cannot sit beside the lawyer. B) One of the software engineers is next to an HR. C) The teacher cannot have the scientist and a software engineer on his either side. D) The software engineers must sit next to each other.

3. If the taxi driver and the physicist has a HR as his immediate neighbor then which of the following is definitely FALSE?

A) The two software engineers are opposite to each other. B) A software engineer is an immediate neighbor of the scientist. C) The taxi driver is next to a software engineer. D) A software engineer is an immediate neighbor of the lawyer.

4. If a software engineer is the immediate neighbor of an HR and the taxi driver is the immediate neighbor of the lawyer, how many different kinds of seating arrangements are possible?

A) Two B) Six C) Sixteen D) Three

5. The maximum number of people you can count if you start counting with the scientist and end with an HR is A) Zero B) Eight C) Five D) Six

Q2. At a buffet six sweets are in a circular order on a table. Burfi is opposite to Kova. There is one sweet between Laddu and Badam halwa. Gulab jamoon is to immediate right of Kova. Rasmalai is one of the sweets. Which sweet is two places away to the left of Gulab jamoon?

A) Laddu B) Badam halwa C) Rasmalai D) A or B

Q3. Eight people A to H are sitting around the table, not necessarily in the same order. The following information is known about them.

- I. If C and F interchange their places then each of them will have one new neighbor.
- II. H is sitting two places away to the left of A.
- III. Two people are sitting between C and G.
- IV. B, who is not adjacent to both G and F, is sitting opposite to G.

1. If A is not sitting adjacent to B, then who will be sitting three places away to the right of F?

- A) E B) B C) D D) Cannot be determined.

CHAPTER 7

DATA INTERPRETATION QUESTION

SET A

Percentage of marks obtained by seven students in six subjects.

Subject's → (Max. Marks) Students ↓	English (60)	History (40)	Computers (130)	Mathematics (150)	Science (120)	Economics (80)
Meera	100	80	50	90	90	60
Subodh	80	70	80	100	80	40
Kunal	90	70	60	90	70	70
Soni	60	60	65	80	80	80
Richu	50	90	62	80	85	95
Irene	40	60	64	70	65	85
Vijay	80	80	35	65	50	75

1) What is the total marks obtained by Meera in all the subjects?

- A. 448 B. 580 C. 470 D. 74.67 E.
None of these

2) What is the average marks obtained by these seven students in History?(rounded off to two digits)

A. 72.86 B. 27.32 C. 24.86 D. 29.14 E. None of these

3) How many students have got 60% or more marks in all the subjects?

A. One B. Two C. Three D. None E. None of these

4) What is the overall percentage of Kunal?

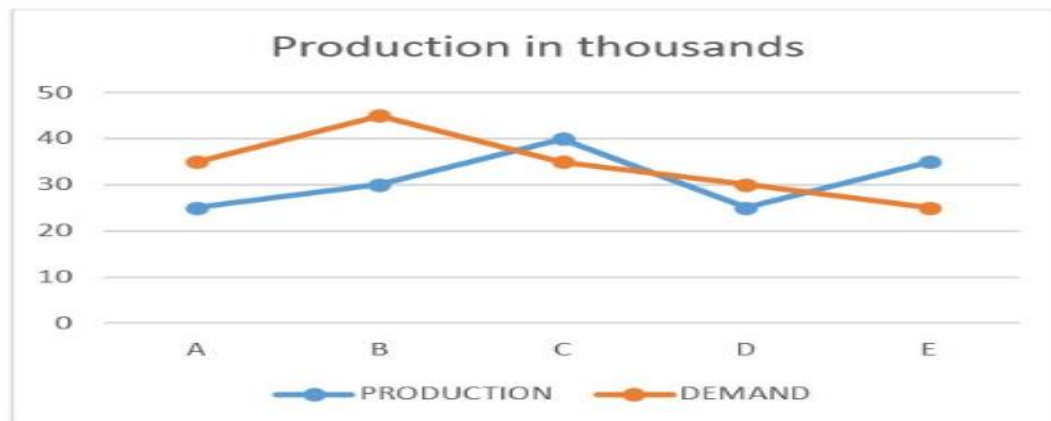

A. 64 B. 65 C. 75 D. 64.24 E. None of these

5) In which subject is the overall percentage the best?

A. Maths B. Economics C. History D. Science E. None of these

Set B)

Following graph gives the demand and production of mobile phones of five companies A, B, C, D and E

1. The production of company B is approximately what percent of the demand?

A.) 71.4% B.) 85% C.) 140% D.) 66.67%

2. What is the average production of mobile phones by all the companies?

A.) 3100 B.) 25000 C.) 26000 D.) 31000

3. The production of mobile phones by company C is the same as the production of which of the following pairs of the companies?

A.) A and D B.) B and E C.) D and E D.) B and A

4. The demand of company E is approximately what percent of the demand of company D?

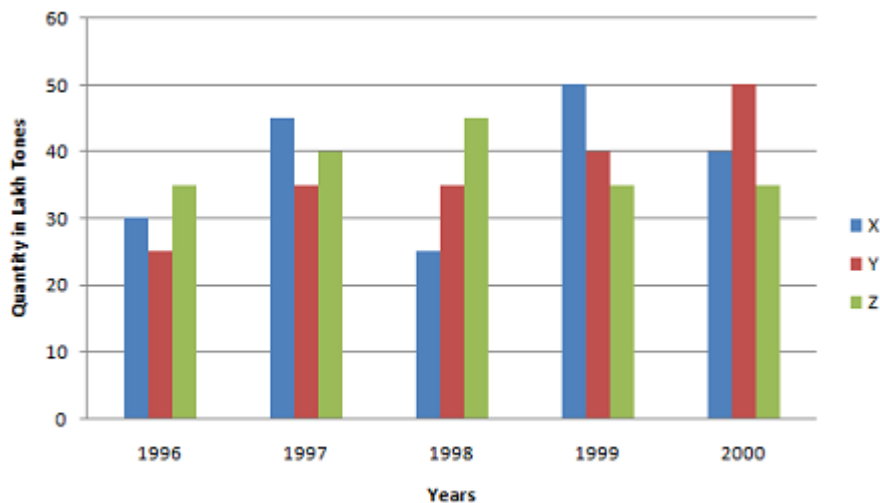

- A.) 30% B.) 65% C.) 83.3% D.) 40%

5. To meet its demand the company A wishes to buy the surplus mobile phones from a single company. Which of the following companies can supply?

- A.) B B.) C C.) D D.) E

SET C

Production of paper (in lakh tonnes) by three companies X, Y and Z over the years. Study the graph and answer the questions that follow.

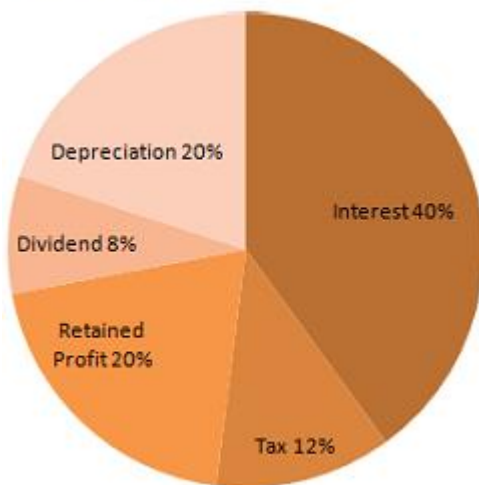

- What is the difference between the production of company Z in 1998 and company Y in 1996?
 A. 2,00,000 tons
 B. 20,00,000 tons
 C. 20,000 tons
 D. 2,00,00,000 tons
 E. None of these
- What is the ratio of the average production of company X in the period 1998-2000 to the average production of company Y in the same period?

- A. 1:1
 - B. 15:17
 - C. 23:25
 - D. 27:29
 - E. None of these
- 3) What is the percentage increase in the production of company Y from 1996 to 1999?
- A. 30%
 - B. 45%
 - C. 50%
 - D. 60%

SET D

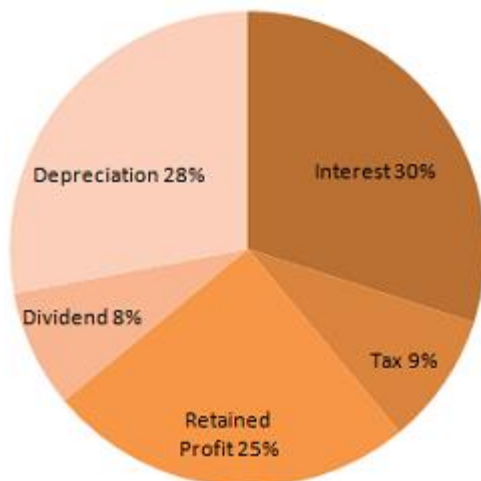

Operating profit Rs. 160 lakh

E. 75%

1991-92

Operating profit Rs. 130 lakh

1990-91

- 6) The operating profit in 1991-92 increased over than in 1990-91?
 A. 23% B. 22% C. 25% D. 24%
 - 7) The interest burden in 1991-92 was higher than that in 1990-91 by:
 A. 50% B. Rs. 25 lakh C. 90% D. Rs. 41 lakh
 - 8) If on an average, 20% rate of interest was charged on borrowed funds, then the total borrowed funds used by this company in the given two years amounted to:
 A. Rs. 221 lakh B. Rs. 195 lakh C. Rs. 368 lakh D. Rs. 515 lakh
 - 9) The retained profit in 1991-92, as compared to that in 1990-91 was:
 A. higher by 2.5% B. higher by 1.5% C. lower by 2.5% D. lower by 1.5%
 - 10) The equity base of these companies remained unchanged. Then, the total dividend earning by the share holders in 1991-92 is :
 A. Rs. 104 lakh B. Rs. 9 lakh C. Rs. 12.8 lakh D. Rs. 15.6 lakh
-
- 4) The average production for five years was maximum for which company?
 A. X
 B. Y
 C. Z
 D. X and Y both
 E. X and z both
 - 5) In which year was the percentage of production of company Z to the production of company Y the maximum?
 A. 1996

- B. 1997
- C. 1998
- D. 1999
- E. 2000

CHAPTER 8

NUMBERSERIES

Odd Man Out

Find the odd man out:

22. (A) India:Rupee (B) American:Dollar (C)Quwait:Dinar (D)
Australia:Pound

Number and Letter Series

1. Find the missing number in the following series.
126,113,102,95,90,____,85
(A) 86 (B) 87 (C) 88 (D)89
2. In the following series a wrong number is given, Find the wrong number.
1,2,4,7,28,140,198,205
(A) 198 (B) 4 (C) 205 (D) 140
3. In each of these questions a number series is given. After the series, a number is given along with (a),(b),(c),(d) and (e) applying the same pattern followed in the given series. Then answer the question given below each.
3,11,25,77,157,473
5,(a),(b),(c),(d),(e) What is the value of (d)?
(A) 257 (B) 341 (C) 312 (D) 41
4. In the following number sequence how many 4's are there that are immediately preceded by 6 and immediately followed by 5?
34265436459864538746821764586459745
5. Find the next letter in the series D, G, J, M, P, ____
(A) Q (B) R (C) S (D) T
6. I, X, J, W, K, V, L, ____
(A) M (B) U (C) S (D) T
7. In the following letter sequence, how many instances are there in which a vowel is immediately preceded and immediately followed by a consonant?

spruatpghjtkpserplmijkmporkgluwrabltupqm

(A) 6 (B) 5 (C) 7 (D) 8

8) A, B, D, H, ____

(A) L (B) N (C) R (D) P

9) 5, 25, 7, _____, 9, 19

a) 23 b) 22 c) 25 d) 32 e) None of The Above

10) 62, 64, _____, 32, 14, 16

a) 26 b) 28 c) 30 d) 32 e) None of The Above

11) 100, 50, 52, 26, 28, _____

a) 30 b) 32 c) 14 d) 16 e) None of The Above

12) 980, 392, 156.8, _____, 25.088, 10.0352

a) 62.72 b) 63.85 c) 65.04 d) 60.28 e) None of The Above
